Art Outreach Programme (Jun 2012 - Aug 2012)
Volunteer
Volunteering in an orphanage in Mombasa (Kenya).

Nicolas Herbreteau

FULL STACK DEVELOPER

I am a full-stack developer who is passionate about tech. When I'm not on my computer, I like going on walks with my dog Bailey. I have always had a passion for technology. I have often been approached by others when they've experienced tech issues. I enjoy helping others and solving problems. I am now ready to take this passion to the next level and transition into a new career in software development.

PROJECTS

Projects

I studied software development at iO Academy. During my time there, I worked on a range of projects, both individual and in a scrum team. My favourite projects are listed below, the rest is available on my portfolio.

Email client

Igloo inbox

Using a provided backend **API** to receive data, Igloo inbox is built with **React**. The application allows the user to read their emails while updating the backend to set them as read dynamically. We used **Bootstrap** to style the app. I worked on retrieving the emails using **AJAX** and on the display of the email in the inbox. The aim was to build a maintainable and scalable app.

Live | Github repo

Listing App (PHP)

Icepace

Icepace is an **Object Orientated PHP** app which is a social media site where user can have their own profile. PHP was used to read and update the database and **SCSS** for the front-end. We also wrote **PHP unit tests** as good practice. I worked on the user profile, using PHP to link the database to the page so that the data will display on the page (avatar, name and bio). The focus was on delivering the best quality code while following **SOLID principles**.

WORK EXPERIENCE

Multimodal Transport Planner

GCA Ltd (Brentwood, UK)

(Dec 2016 - Jun 2022)

I managed key french accounts with their transportation requirements in Europe. I also was the IT facilitator between Head Office in France and the UK branch and I have been involved in improving the company's Transport Management System.

EDUCATION

iO Academy (Jul 2022 - Oct 2022)
